Roof Restoration - a sustainable solution
Presented by
Stephen Lamm, CDT, RRO, Roofing Specialist
TREMCO Roofing & Building Maintenance

How does a roofing specialist determine if your roof is a good candidate for roof restoration/preservation? Stephen Lamm of TREMCO will review local case studies and projects and compare initial budget estimates for traditional solutions versus actual contract amount.

Lamm will focus on:
- What kind of products are used, and why?
- What are the environmental benefits?

Have questions? Send in advance to ifmahr@gmail.com & we’ll be sure to address them at the chapter meeting.
